LEVER GREASE GUNS - HEAVY DUTY

AUTOMOTIVE

INDUSTRIAL

AGRICULTURE

CONSTRUCTION

Top of the line Grease Gun designed for punishing day-in and day-out heavy industrial applications

Develops

10,000 PSI / 690 BAR

Variable Stroke

feature built in for use in confined areas

High Tolerance Aluminum Die Cast Grease Gun Head

Built Tough

Robust barrel 0.049 (1.2 mm) thick, Heavy Duty follower spring, CNC machined grease gun head, large rolled threads for fast & easy re-loading

Complete with a choice of 6" (150 mm) steel extension or 12" (300 mm) flexible hose & professional 4 jaw coupler with ball check

Heavy Duty Grease Gun Head incorporates a bulk loader and an air bleeder valve

427-80

For use with 450 gms grease cartridge, popular in Australia & New Zealand

Ø 63.5 mm

427-50

High Capacity Grease Gun for use with 24 oz. (750 cc) bulk grease or with standard 14 oz. (400 gms) grease cartridge

Ø 2-1/4" (57.15 mm)

Rugged and Robust
zinc plated lever
handle

DOUBLE LEVER GREASE GUN

AUTOMOTIVE

INDUSTRIAL

WORKSHOP

Double lever grease gun for quick effortless High pressure greasing applications

Screw-in cartridge works on special "vacuum technology" that ensures full utilization of grease in the cartridge, as well as eliminates priming issues associated with conventional grease guns

Seal guards at the two ends of the cartridge create vacuum that pulls out grease thus emptying the cartridge completely

Robust high tolerance aluminum die cast head

Minimal wearing parts give it a long life

Protective cap for hose storage when not in use, prevents contamination at the hose end

No connections hence no potential leaks or occurrence of contamination

Delivers

Upto 0.80 gm / stroke
(1 oz. per 35 strokes)

Complete with 12" (300 mm) high pressure flexible hose with 4 jaw coupler

DELIVERS

Upto 0.8 gm / stroke
Upto 1 oz. / 35 strokes

PISTOL GRIP GREASE GUN - PROFESSIONAL

AUTOMOTIVE

INDUSTRIAL

CONSTRUCTION

AGRICULTURE

Lifetime product, ideal for frequent greasing applications

Patented feather touch design for minimal effort

Most useful for greasing in confined spaces or where access to grease fitting is restricted

Incorporates a unique variable stroke feature, not common with Pistol Grease guns. This allows the gun to reach increased greasing pressures from short strokes & high greasing volumes from full strokes

Machined to very close tolerances with perfect fits

Built Tough

Robust barrel 0.049" (1.2 mm) thick, Heavy Duty Follower Spring, CNC machined grease gun head, large rolled threads for fast & easy re-loading

Capacity

14 oz. (400 gms) grease cartridge or 500 cc bulk fill

Delivers

1.1/2 times more grease per stroke & at the same time generating pressures upto 7,500 PSI (517 BAR)

Complete with 9" (225 mm) high pressure flexible hose & professional 4 jaw coupler with ball check

Head incorporates a unique bulk loader, which doubles as an air bleeder

One piece aluminum die cast head & fixed handle offers extra strength & convenience in use

Designed for highest convenience in use with one hand operation & minimum effort that any gun can offer

Non slip textured finish

2-1/4" (57.15 mm)

Unique Lock Lever mechanism allows user to easily lock plunger rod in any position

'ULTIMATE' ALL WEATHER PISTOL GRIP GREASE GUNS

AUTOMOTIVE

INDUSTRIAL

CONSTRUCTION

AGRICULTURE

All weather grease gun, designed especially for ease of use in very cold weather conditions

Venturi Mechanism coupled with a large grease inlet helps retain prime

Built tough

Robust grease gun barrel 0.049" (1.2 mm) thick, heavy duty follower spring, CNC machined grease gun head machined to very close tolerances that ensures perfect fits, large rolled threads for fast & easy re-loading

Double lipped rubber follower for use with 14 oz. (400 gms) grease cartridge / bulk, without any changeover

Heavy Duty plunger spring design keeps grease compressed, free of air pockets

Drop resistant Pistol Grip design

Also available with **Unique Adjustable Stroke Mechanism** that switches between high volume & high pressure applications with ease

High volume for faster greasing and high pressure for use in cold weather

Works with all grease types NLGI 1, 2 & 3

Develops

Upto 7,000 PSI / 483 BAR

Head incorporates a unique bulk loader, which doubles as an Air Bleeder

Compression Spring

430-40

Capacity

14 oz. (400 gms) grease cartridge or 500 cc bulk fill

Complete with 18" (450 mm) high pressure flexible hose & professional 4 jaw coupler with ball check

Rugged Die Cast Handle

Grease Gun Head with large grease inlet with venturi action

Premium Double Lipped Grease Follower for use with 14 oz. (400 gms) grease cartridge

DELIVERS

FOR G70

Upto 0.68 gm / stroke
Upto 1 oz. / 40 strokes

FOR G80 & G85

Upto 0.90 gm / stroke
Upto 1.30 oz. / 40 strokes

UNIQUE ADJUSTABLE MECHANISM
HIGH PRESSURE / HIGH VOLUME

High Pressure for use in cold weather
 High volume for faster greasing

Lift or lower the adjustment lever to switch between high pressure and high volume

Head incorporates a unique bulk loader which doubles as an air bleeder

430-48
Capacity

450 gms grease cartridge

Complete with 12" (300 mm) high pressure flexible hose & professional 4 jaw coupler with ball check

63.5 mm

430-45
Capacity

14 oz. (400 gms) grease cartridge or 500 cc bulk fill

QUICK CONNECT PISTOL GRIP GREASE GUN

AUTOMOTIVE

INDUSTRIAL

CONSTRUCTION

AGRICULTURE

Quick-Load Technology is a unique concept that allows for fast reloading process. Quick-Load features threadless quick connect barrel that significantly reduces downtime. Simply pull the Quick-Load switch to disengage the barrel. Never worry about crossing threads on your barrel again!

This grease gun rivals others in quality, function and pressure output while maintaining the convenience of one hand operation

Grease gun head fitted with bulk loader & automatic release valve. Automatic release valve bleeds out air when loading grease guns, without the need to manually operate the valve

Unique Adjustable Stroke Mechanism that switches between high volume & high pressure applications with ease

Grease inlet with venturi action helps retain prime

Double lipped rubber follower allows use with grease cartridge bulk without any change-over

Capacity
14 oz. (400 gms) grease cartridge or 500 cc bulk fill

Works with NLGI 1, 2 & 3 greases

Complete with 18" (450 mm) high pressure flexible hose & professional 4 jaw coupler.

clear tube

A perfect addition to any lubrication program!!

- Proper identification of grease
- Eliminates cross-contamination
- Visibility of air pockets
- Visibility to remaining grease
- Eliminates risk of mixing greases

Clear tube equipment from PROLUBE makes you 100% sure of what you are dispensing; ensuring you don't make costly mistakes that cannot be reversed.

Different equipment, machines, bearings and vehicles require different types of lubricants. Proper identification of the lubricant once installed in the equipment can be challenging.

An estimated 60% of bearing failures all over the world are due to lubricant cross contamination. This leads to costly downtime & expensive machinery repairs.

Switch to '**Clear Tube Equipment**' for you have a simple & cost effective means to prevent this

These have applications everywhere, especially in Marine, Naval Aviation, Military, & Food Industry

Also available with colour coded end caps for colour coding based on grease type, frequency of use or application point

CLEAR TUBE
LEVER GREASE GUNS

INDUSTRIAL

DEFENCE

MARINE

FOOD

Unique concept & design that allows quick & clear lubricant identification, thus eliminating the risk of cross contamination or mixing of incompatible lubricants

Tough, impact resistant & drop resistant polycarbonate tube with Aluminium die cast head with bulk loader & air release valve

High tolerance Aluminium die cast head with bulk loader & air release valve

Variable stroke
for ease of use in confined spaces

Develops
10,000 PSI / 690 BAR

Available in a choice of 14oz. (400 gm) capacity or 450 gm capacity popular in Australia & New Zealand

Complete with 6" (150 mm) steel extension & professional 4 jaw coupler with ball check

469-00
For use with 14 oz. (400 gms) grease cartridge or 500 cc bulk

469-90
Barrel only

Quick lubricant identification eliminating the risk of mixing incompatible or unspecified lubricants

! WARNING

Designed for use with grease only:
Do not use with: ESTER based Greases, Synthetic Greases such as Aeroshell 33 Grease, Aeroshell 7 Grease, Skydrol Products etc. These have an adverse effect on the clear polycarbonate tube & can cause fogging , cracking & fracturing of the tube.

Fits all standard grease guns

PART NR.	THREADS
435-50	1/8" BSPT
435-51	M10 x 1
* 435-52	1/8" NPT

Key * Best Seller

Right angled coupler used for greasing the axle of a low height truck where access to the grease fittings is only through a side

29

HYDRAULIC COUPLER - 360°

An excellent coupler for effective lubrication of difficult & hard to reach grease fittings

Jaws are fully hardened for extended service life

Hardened coupler body & swivel joints withstand high-pressure applications without deformation

Zinc plated finish

Spring loaded ball check valve helps retain pressure

Swivels in full 360° circle & locks conveniently at any 45° position. 45° angle gives easy access to most grease fittings

Hexagonal nut allows easy tightening

PART NR.	THREADS
435-60	1/8" BSPT
435-61	M10 x 1
* 435-62	1/8" NPT

Key * Best Seller

30

BUTTON HEAD COUPLERS

A range of couplers for use with button head grease fittings, found mostly on heavy machinery, agricultural or contractor's equipment

Zinc die cast construction

Couplers conveniently slide over the face of the button head fitting

All couplers have a metal seal that imparts increased resistance to wear

NOTE

Prolube also manufactures a range of Button Head Grease Fittings. Refer to page 51 for details

GREASE GUNS

35

GREASE GUN HOLDERS

Simple snap action clamps for safe storage of grease guns and suction guns

Mount on almost any surface

Manufactured from heavy gauge steel sheet with zinc plated finish

448-40

448-41

PART NR.	SUITABLE FOR BARREL DIAMETER
* 448-40	2.1/4" (57.15 mm) on guns suitable for 14 oz. (400 gm) cartridge
448-41	63.5 mm on guns suitable for 450 gms cartridge popular in Australia & New Zealand

Key * Best Seller

36

HEAVY DUTY GREASE GUN HOLDER

Heavy Duty Grease Gun holder, designed especially for use on farm & construction equipment, trailers, tractors & other automobiles in high vibration environment

Sturdy all steel construction with a 4 bolt design for convenient & secure mounting

Heavy Duty Spring

Works with both 14 oz. (400 gm) capacity Grease Guns with a 2-1/4" (57 mm) dia. and 450 gm capacity Grease Guns with 63.5 mm dia. popular in Australia & New Zealand

4 Bolt Design

* Supplied Without Grease Gun

PART NR.	SUITABLE FOR BARREL DIAMETER
448-42	2.1/4" (57.15 mm) & 63.5 mm barrels popular in Australia & New Zealand

37

GREASE GUN HOSES

Grease hoses allow greasing access to nipples with limited reach. Due to their flexible construction, these are used for greasing hard to reach grease fittings

Thermoplastic construction with 0.14" (3.6 mm) inner diameter & 0.33" (8.5 mm) outer diameter

Highly flexible with minimum bending radius of 1.57" (40 mm)

Zinc plated steel end connections with hydraulic crimping

Select lengths available in the following variations:

- a. Hose fitted with spring guard
- b. Hose fitted with professional 4 jaw coupler with ball check
- c. Hose fitted with Swivel

WARNING

Never use beyond recommended working pressure

USEFUL TIPS!

Always buy a good quality hose. Accidents caused by poor quality hose can cause fatal injury

38

GREASE GUN HOSES -
HEAVY DUTY

Superior Construction – Inner tubing is polyamide with polyurethane sheathing, reinforced diagonally in highly tear resistant polyester

Hose has an inner diameter of 0.16" (4.1 mm) & an outer diameter of 0.425" (10.8 mm). **Large inner diameter makes them ideal for use in cold weather**

Heavy duty zinc plated end connections hydraulically crimped to the hose

Rolled threads for extra strength

Select lengths also available in the following variations

- a. Hose fitted with heavy-duty spring guard. Used primarily with Grease Control Valves
- b. Hose fitted with professional 4 jaw coupler with ball check

Other lengths can be custom manufactured

45

DELUXE STEEL BEARING PACKERS

Useful for greasing bearings in cars, boats, tractors, RV's etc

Rugged steel construction

USEFUL TIPS!

Always use recommended grade of grease. Some grades of grease cannot handle temperatures of wheel bearing applications

Do not use compressed air for cleaning the bearing prior to use with the bearing packer. This is unsafe and could damage the race

448-47

Rapid action Bench Type Bearing Packer for use with Grease Guns. Non threaded top cone for fast placement of bearings. The design incorporates grease nipple on the outer shaft, which easily adapts to the grease gun coupler. Suited for bearings with a min. inner diameter of 1/2" (12 mm), to a max. outer diameter of 6" (150 mm) and height from 3/8" (10 mm) to 2" (50 mm)

448-45

Bearing Packer with threaded center post for use with Grease Guns. The design incorporates grease nipple at one end, which easily adapts to the grease gun coupler. Suited for bearings with a min. inner diameter of 1/2" (12 mm), to a max. outer diameter of 5" (125 mm) and height from 1/4" (6 mm) to 2" (50 mm)

448-48

Rapid action Bearing Packer for use with Grease Gun Filler Pump. Non threaded top cone for fast placement of bearings. Outer shaft is threaded 1/4" NPT (F) & fits onto the Outlet Discharge Tube of the Grease Filler Pump. Suited for bearings with a min. inner diameter of 1/2" (12 mm), to a max. outer diameter of 6" (150 mm) and height from 3/8" (10 mm) to 2" (50 mm)

PART NR.	DESCRIPTION
448-45	For use with Grease Guns
448-47	For use with Grease Guns
448-48	For use with Filler Pump

46

GREASE FEEDERS

Grease Feeders are used to provide single point controlled lubrication for all types of bearing housings thereby eliminating difficulties arising due to over or under greasing

Working on a spring compression mechanism, the design regulates grease discharge in proportion to changing spring pressure, thus maintaining constant discharge pressure of 1- 2 PSI

Assembled with medium duty spring, the light & heavy duty springs come as spares in the pack and can be easily interchanged depending upon application

Can be mounted in any position for easy visual inspection of grease levels

Reusable: Can be refilled easily with immediate activation.

1/8" (M) steel adaptor at the tail end fits directly onto bearing housings Thread converters & angle adaptors available as spares

Remote Refill kit also available that permits remote filling of grease from distances up to 3 meters (10')

RECOMMENDED USE

For use with NLGI 0 to 4 non separating grease on any equipment that

- has anti friction, oscillating or roller bearings
- has shielded bearings with seals
- has bronze, olite or open bearings
- requires bearing flushing action

477-01

! WARNING

Do not use with ESTER based greases, synthetic greases such as Aeroshell 33 Grease, Aeroshell 7 Grease, Skydrol Products etc. These have an adverse effect on polycarbonate & can cause fogging , cracking & fracturing

**6,000 PSI
(413 BAR)**

Manufactured to the most stringent quality standards – TS16949 approved manufacturing

Available in a range of materials: EN-1A steel, 303 Stainless Steel, Brass etc.

Fitting profile & dimensions are accurately controlled & conform to SAE, DIN, BS, JIS & IS standards

Grease fittings are heat treated to SAE J534 specification with hardness on greasing end to a minimum of 83 on Rockwell 15N scale with a case depth of 0.005" (0.13 mm) to 0.009" (0.23 mm)

Fittings with ball check use heat treated springs for increased life

Steel fittings are plated in yellow zinc with a plating thickness of 0.0002" (5 microns) conforming to ASTM B117 specification & have a guaranteed salt spray life of over 75 hours to red rust. Fittings can be custom manufactured in white zinc & also be made with trivalent passivation

Also available 303 stainless steel fittings for marine applications

Available ready from stock in a large selection of popular types & sizes, with many more variations custom manufactured

50

GREASE FITTING
THREAD TESTER

Great tool box accessory to sort out mixed fittings

Aluminum construction with mounting holes

DESIGNED TO CHECK 21 MOST POPULAR THREAD TYPES:

THREAD TYPE	SIZE			
NPT	1/8"	1/4"	3/8"	
METRIC	M6 X 1	M6 X 0.75		
METRIC	M8 X 1	M8 X 1.25		
METRIC	M10 X 1	M10 X 1.5		
BSPT	1/8"	1/4"		
UNF/ANF	1/4"	5/16"	3/8"	
BSW	1/4"	5/16"	1/2"	3/8"
BSF	3/16"	1/4"	5/16"	

PART NR.
448-95

51

GREASE FITTING CAPS

Plastic Caps for Grease fittings are an easy way to keep contaminants out. These additionally help in colour coding the greasing points based on frequency of greasing or type of grease

Designed with an inbuilt collar, these are most convenient in use & fit directly onto the greasing end of the fitting

Made from a special plastic, these adjust to minor variations in fitting head diameter, as well as variations in temperature & practically fit all standard fittings designed for use with jaw type couplers

Available in Black, Red, Yellow, Blue, White & Green as standard with other colours that can be custom manufactured

Sold in packs of 50

PART NR.	COLOUR
467-00	Black
467-01	Red
467-02	Yellow
467-03	Blue
467-04	White
467-05	Green

52

EASY OUT TOOLS

Handy, dual purpose tools for removing worn & broken grease fittings as well as re-tapping holes for installing new grease fittings

Works with straight & angled fittings

Available in small & large sizes for use on almost all threaded fittings

PART NR.	TYPE	OPENS FITTINGS WITH HEX SIZE	TAP RETHEADS
448-90	Small	5/16" & 3/8"	1/4" - 28
448-91	Large	3/8" & 7/16" (11 mm)	1/8" - 27

Key * Best Seller

53

“DRIVE FIT”
GREASE FITTING INSTALLER

Specialty tools for installing straight & angled Drive-Fit Grease fittings into untapped holes

Steel construction in zinc plated finish

PART NR.	FOR FITTING TYPE
448-92	Straight
448-93	Angled

54

GREASE FITTING
UNBLOCKER

Opens clogged grease fittings and loosens hardened grease joints

Excellent for maintaining and protecting bearings, control arms, joints, king pins, etc.

Tool has an all steel construction & is designed to be tapped with a hammer to force a light viscosity oil through the tool into the coupler & finally into the grease joint, breaking up and removing dirt and debris

Built-In Hand Guard for added safety in use

Flexible hose attachment reaches fittings in difficult areas

Comes complete with grease coupler and 2 spare seals for replacing the piston seals as they wear out

PART NR.
448-94

QUICK CONNECTION SYSTEM

*Quick Connect!
Connect or disconnect
with a snap!*

A simple and effective system that renders versatility to Grease Guns

Greasing in inaccessible, difficult to reach areas becomes very convenient with the use of any of the Quick Link accessories. No threads, no screwing or unscrewing, just snap on and use on sealed bearings, U-joints, high-pressure insert fittings and recessed fittings

Ready to use range is detailed in the following pages. Various other combinations, however can be devised based on specific application and need

The system is suitable for use with hand operated grease guns only

STEP 1

Retract sleeve of the quick connect system

STEP 2

Snap on the system by simply "Plugging On" the grease fitting to the coupler

STEP 3

Ensure that the quick connect system is secure

STEP 4

Release the sleeve of the quick connect system. The sleeve automatically slides over the coupler to encase it securely

To disconnect, simply reverse the operation

55

QUICK CONNECT ADAPTORS

FOR HAND OPERATED
GREASE GUN

1,000 PSI
(69 BAR)

Quick Connect Right Angled Needle Nose Dispenser for dispensing a fine line of grease. The right angled design allows convenient access in shoulders & other confined areas

PART NR.

449-13

6,000 PSI
(413 BAR)

Quick Connect Right angled Grease Coupler Right angle coupler fitted onto the quick disconnect adaptor. For quickly converting regular couplers for greasing fittings with limited access, in low height areas etc. Fits straight onto the grease gun coupler

PART NR.

449-12

1,000 PSI
(69 BAR)

Quick Connect Grease Injector Needle useful for lubricating in very tight spaces such as sealed bearings, universal joints etc. Comes complete with protective plastic holder

PART NR.

449-14

QUICK CONNECT ADAPTORS (continued)

Professional Recessed Lube Adaptor for push on greasing of recessed fittings where obstructions would not permit the use of a regular hydraulic coupler

PART NR.

449-21

Professional 90° Angled Lube Adaptor for greasing inaccessible grease fittings in shoulders and other confined areas

PART NR.

449-22

Professional Narrow Needle Nose Adaptor designed for greasing flush or hard to reach hydraulic type fittings in inaccessible areas

PART NR.

449-20

Needle Nose Adaptor
Useful for dispensing a fine line of grease through the needle nose in greasing hard to reach fittings on trucks, vans, and recreational vehicles. Supplied with a small and a large locking sleeve to fit all couplers

PART NR.

449-05

Needle Nose Adaptor
Useful for dispensing a fine line of grease through the needle nose in greasing hard to reach fittings on trucks, vans, and recreational vehicles. Supplied with a small and a large locking sleeve to fit all couplers. Also available with Protective Shroud

PART NR.	THREADS
449-02	1/8" BSPT
449-03	1/8" NPT
449-04	1/8" BSPT (with Shroud)

Professional 360° Swivel Coupler
Useful for effective lubrication of difficult & hard to reach grease fittings. Coupler swivels in full 360° circle & can be locked at intervals of 45°

PART NR.

449-11

**FOR HAND OPERATED
GREASE GUN**

**6,000 PSI
(413 BAR)**

Coupler to Coupler Extension

6" (150 mm) angled delivery tube and 4 jaw professional coupler fitted onto the quick disconnect adaptor. Serves as an extra length extension on grease guns. Fits straight onto the grease gun coupler

PART NR.

449-06

**3,000 PSI
(207 BAR)**

Jaw Type Coupler to Button Head Coupler

Push on button head coupler fitted onto the quick disconnect adaptor. For quick conversion of jaw type couplers to button head coupler for use on 5/8" (16 mm) button head grease fittings directly. Fits straight onto the grease gun coupler

PART NR.

449-07

**1,000 PSI
(69 BAR)**

Regular Coupler to Right Angled Coupler

Right angle coupler fitted onto the quick disconnect adaptor. For quickly converting regular couplers for greasing fittings with limited access, in low height areas etc. Fits straight onto the grease gun coupler

PART NR.

449-08

**1,000 PSI
(69 BAR)**

Jaw type Coupler to Seal Off Dispenser

Seal Off Dispenser fitted onto the quick disconnect adaptor. For quickly converting regular couplers for lubricating automobiles with grease plugs etc. Fits straight onto the grease gun coupler

PART NR.

449-09

Spring guard fitted on the coupling end provides rigidity making the coupling end snap easily onto grease fittings

**3,500 PSI
(240 BAR)**

Quick Connect Hose

The Quick Connect Hose converts steel extension coupler assembly on grease guns to a flexible hose and allows the gun to be used for greasing hard to reach fittings. Overall length: 16" (410 mm)

PART NR.

449-10

Grease Fitting on the opposite end of the hose snaps on conveniently onto all Jaw type couplers

**3,500 PSI
(240 BAR)**

Quick Connect Grease Hose & Needle

The Quick Connect Hose converts jaw type coupler on grease guns to a Grease Injector needle for greasing in very tight spaces such as universal joints & sealed bearings. Hose fitted onto the needle enables access onto hard to reach fittings as well as makes it easy to handle the needle without the risk of injury. Overall length: 15½" (393 mm)

PART NR.

448-75

56

QUICK DISCONNECT ADAPTOR

Adaptor with grease fitting on one end and male threads on the other

Threaded end can be screwed onto any dispenser with 1/8" female threads, thus allowing for quick connect greasing applications

Supplied with a small and large locking sleeve to fit most couplers

PART NR.	THREADS
449-00	1/8" BSPT
449-01	1/8" NPT

57

EZEE LUBE KIT

The Ezee-Lube kit comprises of a range of quick connect lube accessories. Useful for even the most difficult greasing jobs. The constituents convert any grease gun fitted with jaw type coupler into special application greasing. This helps in effective lubrication of grease plugs, sealed bearings, push on greasing of recessed fittings or fittings in shoulders, low height areas or an extension for reaching those "deep" places

PART NR.
* 449-50

Key * Best Seller

58

COMPOSITE AIR OPERATED GREASE RATIO PUMPS 50:1

INDUSTRIAL

AUTOMOTIVE

MINING

Compact Air Operated 50:1 Grease Ratio Pump

Operates off most small compressors with size as small as 0.08 cubic meter / minute (3 cfm)

Ideal for applications having continuous need for high pressure grease in Industry, Workshops, Farm etc.

Zinc construction makes them suitable for mining applications

2.83" (72 mm) dia. air motor

Grease strainer at suction tube inlet, ensures clean grease to the bearing

Non corroding air motor design allows the pump to be used without an air line lubricator

Fitted with a pressure release valve- prevents both the pump & system against damage created by excessive pressure, possibly due to thermal expansion

Comes complete with drum cover, rubber lined follower plate, 7' (84") of high pressure grease hose, Z swivel & professional grease control valve

WETTED COMPONENTS

Zinc, hard chrome plated steel, brass, nitrile & polyurethane rubber

RECOMMENDED USE

With light and self collapsing grease up to NLGI No. 2

Control Valve threaded
1/4" (F) at inlet and
1/8" (F) at outlet

454-00

For use with 25-50 lbs
/ 20 kg / 5 gal. pails.
Suction tube length
17.5/16" (440 mm)

Z swivel threaded
1/4" NPT (M) x
1/4" NPT (F)

443-46

Available as spare:
84" high pressure hose
threaded 1/4" NPT (M)

SPECIFICATIONS

Working Pressure	4 – 10 BAR (60 to 150 PSI)
Maximum Air Pressure	10 BAR (150 PSI)
Maximum Outlet Pressure	500 BAR (7500 PSI)
Air Inlet Connection	1/4" NPT (F)
Pump Outlet Connection	1/4" NPT (F)
Air Consumption	270 lt / min (72 GPM)
Grease Output (NLGI No. 2 Grease)	0.460 kg / min (1 lb / min)
Noise Level	85 db

WARNING

Pump must be supplied with clean & dry compressed air via an FR unit

AIR OPERATED GREASE RATIO PUMPS 50:1

CE

INDUSTRIAL

AUTOMOTIVE

World-class Industrial High Pressure Grease pumps with guaranteed performance & hassle free operation

Pump dispenses Grease at pressures upto 50 times the Air inlet pressure

Designed to work in tough conditions - these are ideal for use in Industry, workshop, farm, construction or as part of the Mobile Grease system

All metal construction, fully CNC machined with hardened wear resistant moving parts

Reciprocating piston operated 2-1/2" (63 mm) dia. air motor

Fitted with strainer at suction tube inlet for clean grease to the bearing

Supplied complete with Drum Cover, rubber lined follower plate, 7' (84") of high pressure grease hose, Z swivel & professional grease control valve

Portable version available with built-in steel drum, complete with wheels & pull handle

WETTED COMPONENTS

Steel, Brass, Aluminium, Polyurethane & Nitrile Rubber

RECOMMENDED USE

With light and self collapsing grease up to NLGI No. 2

Control Valve threaded 1/4" (F) at inlet and 1/8" (F) at outlet

Z swivel threaded 1/4" (M) x 1/4" (F)

84" high pressure hose threaded 1/4" (M) (available as spare)

454-11

For use with 120 lbs / 50 kg / 16 gal. pails. Suction tube length 28 3/4" (730 mm)

Working Pressure	2 – 10 BAR (30 to 150 PSI)
Maximum Air Pressure	10 BAR (150 PSI)
Maximum Outlet Pressure	500 BAR (7,500 PSI)
Air Inlet Connection	1/4" BSP (F) / 1/4" NPT (F)
Pump Outlet Connection	1/4" BSP (F) / 1/4" NPT (F)
Air Consumption	230 lt / min (61 GPM)
Grease Output (NLGI No. 2 Grease)	1.10 kg / min (2.42 lbs / min)
Noise Level	81 db

GREASE CONTROL VALVES -
PROFESSIONAL

- Premium quality Grease Control valve, for use with air operated grease pumps
- Provides continuous grease flow, with trigger fully pressed
- Steel construction, provides durability & longevity
- Ergonomically designed pistol handle
- Available as valve only, or fitted with 360° Z Swivel
- Comes complete with 6" steel extension & heavy duty coupler
- Available in a choice of inlet thread sizes

! WARNING

Skin Injection Hazard.
Keep away from nozzle

CAUTION
The gun is continuous action. Be careful not to over lubricate.

61

GREASE CONTROL VALVES -
BOOSTER

Heavy Duty Grease control valve with built-in pressure boost mechanism. Provides continuous flow with pistol handle fully pressed

Pressure boost achieved through repeated actuation of the pistol handle. Boosts line pressure from 6,000 PSI (400 BAR) to 10,000 PSI (690 BAR); extremely useful to unblock frozen grease fittings

Heavy Duty steel construction, provides durability & longevity

Ergonomically designed pistol handle

Available as valve only, or fitted with 360° Z Swivel

Comes complete with 6" (150 mm) steel extension & coupler

Available in a choice of inlet thread sizes

! WARNING

Skin Injection Hazard.
Keep away from nozzle

CAUTION
The gun is continuous action. Be careful not to over lubricate.

MAX. WORKING PRESSURE
10,000 PSI (690 BAR)

434-54

Booster Grease control valve. Complete with Heavy Duty 4 Jaw Coupler with ball check

**434-68**

Booster Grease control valve with pressure relief valve on the outlet. Opening the relief valve removes high pressure from the coupler enabling easy coupler disconnection from the zerk fitting. Complete with 3 Jaw Professional coupler without ball check

GREASE CONTROL VALVE
METERED

Premium quality Grease Control valve, for use with air operated grease pumps

Built-In High Accuracy Digital Grease Meter for dispensing exact amount of grease

Ability to measure amount of grease dispensed prevents both over & under lubrication & is invaluable in saving bearing failures

Provides continuous grease flow, with trigger fully pressed

Steel construction, provides durability & longevity. Meter uses oval gear technology

Ergonomically designed pistol handle

Comes complete with 6" steel extension & heavy duty coupler

MAX. WORKING PRESSURE
7,500 PSI (517 BAR)

! WARNING

Skin Injection Hazard.
Keep away from nozzle

CAUTION

HIGH PRESSURE
GREASE SWIVELS

Installed between the delivery hose & grease control valve, swivels permit easy handling of control valves and prevent damage to hose caused by twisting

Swivels have a heavy duty steel construction with ball bearings for smooth operation and free unrestricted movement

The swiveling joints are hardened for durability & wear resistance

Available in three forms: Straight, 90° & Z-360°, in varying thread specifications. Other thread sizes can be made on request

MAX. WORKING PRESSURE
6,000 PSI (413 BAR)

360° Z Swivel

Allows for convenient movement of the control valve & prevents the high pressure hose from kinking

FOOT OPERATED GREASE PUMP

CONSTRUCTION

AUTOMOTIVE

AGRICULTURE

MINING

High Pressure Portable Grease Pump for quick effortless greasing in everyday lubrication such as greasing of excavators & other earth moving equipment, agricultural equipment, automotive etc.

Hands free operation
Pump operates using the Foot Lever, which greatly reduces effort & allows high pressure greasing with highest comfort

Can be operated by hand when under low machinery

Economical
Pump is operated by a single person & uses low cost bulk grease

Designed with all moving parts submerged in the same grease which needs to be pumped, thereby staying lubricated at all times

Moving parts create wave action in grease, auto removing air pockets & eliminating the use of a follower plate

Pump delivers 2 gms of grease per stroke & develops upto 8,700 PSI (600 BAR)

Works with NLGI 1 & 2 Greases

DELIVERS

Upto 2 gms / stroke

Upto 1 oz. / 15 strokes

Lift handle

Steel Drum Cover

Steel Bucket with 10 kg (22 lbs.) capacity

Nozzle Holder

Pistol handle fitted with Steel Grease Extension & heavy duty coupler

Includes 2m x 1/4" ID high pressure rubber hose

Foot Lever

Rubber Pads

NOTE
Pump is 100% pressure tested using non food grade grease. New pumps would have some test grease inside, confirming that the pump has been factory tested

PART NR.	BUCKET CAPACITY
442-56	10 kgs (22 lbs.)

65

PORTABLE GREASING SYSTEM

CONSTRUCTION

AUTOMOTIVE

AGRICULTURE

Fully Portable & single person operation manual greasing system designed for volume greasing in workshop environments, site applications, on a pick-up truck, tractor, earth moving equipment etc.

Pump is operated by foot press of the spring loaded system. The hose gets charged with grease, which can then be dispensed through the Super Gun fitted at the end of the hose. A single charge provides upto 30 shots of grease

Aluminium die cast super gun develops greasing pressure and has high pressure & high volume settings, actuated through a simple switch. High pressure setting dispenses 0.45 gm of grease in each shot at 10,000 PSI. High volume setting dispenses 1.25 gms per shot

High pressure feature is very useful to open blocked grease fittings

Pump assembly is fully sealed to prevent contamination

Pump comes complete with drum cover, rubber lined follower plate, premium 1/2" ID high pressure hose, Super gun fitted with steel extension & coupler and 11 lb. (5 kg.) plastic grease bucket

WETTED COMPONENTS

Aluminum, Steel, Brass,
Polyurethane & Nitrile Rubber

RECOMMENDED USE

For Grease up to and including NLGI
No. 2

66

BUCKET GREASERS

Volume Grease Pump designed for quick effortless greasing in applications requiring everyday lubrication such as greasing of excavators & other earth moving equipment, agricultural equipment, automotive applications etc.

The Pump delivers upto 9 gms (0.30 oz.) of Grease per stroke which is twice the amount of grease discharge by any other pump. Fully CNC machined to very close tolerances, the pump develops pressure upto 4,000 PSI (275 BAR)

Whereas most pumps work only with light Greases, the VGP series pumps work equally well with NLGI 1 , 2 & 3 Greases

WETTED COMPONENTS
Steel, Aluminum, Brass & Nitrile Rubber

RECOMMENDED USE
For Grease up to and including NLGI 3

DELIVERS

Upto 9 gms / stroke (0.30 oz. / stroke)
high volume setting

PART NR.		BUCKET CAPACITY

Capacity : 20 kgs / 44lbs.

GREASE FILLER PUMP - PROFESSIONAL

Industry's # 1 bulk grease filling pump with extra heavy duty construction & discharge almost twice as much as any other filler pump

Ideal workshop complement combining economical bulk grease purchasing with the portability of a hand operated grease pump

Suitable for bulk filling grease guns, as well as transfer of grease from large to small containers

Solid cast aluminum pump head, ergonomic steel pump handle, solid steel drum cover with lift handle & rubber lined follower plate

Brass piston rings for minimal wear

Variable handle setting for increased convenience in use with light & heavy greases

Fully sealed to prevent contamination

RECOMMENDED USE
For grease up to and including NLGI 3

DELIVERS

54 gms (1.9 OZ.) / stroke

GREASE FILLER PUMPS

INDUSTRIAL

AUTOMOTIVE

AGRICULTURE

Easy to use Grease filling solution to load bulk or combination grease guns from bulk grease pails

No mess or waste. Full economy in buying bulk grease

Complete unit includes zinc plated pump with zinc die cast pump head and cast aluminum adjusting flange, drum cover, follower plate & female loader fitting

Select models include follower plate with rubber lining for use with tapered drums

Available with a choice of Female loader adaptors:
Regular for use with American Tapered 0.58" (14.7 mm) male loader fittings or Universal which adapts to both European Straight (9 mm) and American Tapered 0.58" (14.7 mm) male loader fittings

RECOMMENDED USE

For Light & self Collapsing Grease up to and including NLGI 2

HIGH PRESSURE GREASE PUMPS

INDUSTRIAL

AUTOMOTIVE

AGRICULTURE

CONSTRUCTION

An easy & portable high pressure hand operated grease pump

Provides high pressure greasing, where power is not available or when an air operated grease pump cannot be afforded

Useful for clean greasing of machinery, equipment, trucks & cars

Pump has steel construction with aluminum cast head & solid steel pumping chamber

Comes complete with Lift handle, Drum Cover, Rubber Lining Follower plate, 48" (1220 mm) flexible grease hose fitted with professional 4 jaw coupler. Model HPG-10 additionally includes a 10 kg (22 lb.) steel Grease Bucket

DELIVERS

1.5 gms / stroke
(1 oz. in 19 strokes)

3,500 PSI
(240 BAR)

Lift Handle

443-45

48" flexible high pressure hose with coupler (available as spare)

FOLLOWER PLATES

A range of follower plates, for use with Grease pumps

Follower plates eliminate channeling & air pockets, keep lubricants from contamination & assist in pumping all of the lubricant from containers

443-20**All Steel Follower Plates**

These are made out of plated sheet metal. The rubber grommet fitted on the centre of the follower plate is slid on the pump suction tube. Used commonly as a low cost alternative with straight grease pails

**443-22****Rubber Lining Follower Plates**

These have a metal main body, with a grease resistant rubber lining. The rubber lining is very effective in wiping grease from container walls and eliminating any air pockets. A steel handle is welded onto the plate for easy removal of the plate, after the grease container is emptied. The rubber grommet fitted on the centre of the follower plate is slid on the pump suction tube. Useful for both straight & tapered grease pails

**443-23**

Caution: Above recommendations may not work with all containers of similar capacity. Due to difference in lube container specifications from one company to another, there can be a difference in your container size. Above recommendations are based on most widely used container specifications worldwide. Pls. ensure that your lube container falls within the above specified follower plate dimensions, for using standard parts. Other follower plate sizes can be made on request.

FEMALE LOADER ADAPTORS

Female adaptors are mounted on Grease Filler pumps for bulk filling Grease Guns

Male Loader fitting on Grease Gun fits onto the female loader adaptor with the rubber seal in the adapter making the transfer leak-proof

Adaptors are threaded 1/4" NPT (F)

443-61
Universal Bulk Loader Valve
This dual-purpose adaptor can be used with both 9 mm Straight & American Tapered 0.58" (14.7 mm) Bulk Loader Valves
The top sleeve adapts to 9mm straight loader valves, which may be removed, and the base used with the larger 0.58" (14.7 mm) loader fittings

443-60
Adaptor for American Bulk Loader Valves only.
These are designed for use with American Tapered 0.58" (14.7 mm) Bulk Loader Valves

Female Loader
Adaptor mounted on
Grease Filler Pump

PART NR.	TYPE
443-60	For American Tapered 0.58"(14.7 mm) loader valves
443-61	Universal Adaptor for use with both 9 mm Straight & tapered 0.58" (14.7 mm) loader valves
